WEDNESDAY, JANUARY 16, 1884.

Associated Press Telegrams

HAVAS' AGENCY

Paris, 14th.

The latest despatches say that the Chinese troops were concentrating in Bach Ninh and Sainan.

LATEST NEWS

PRESS TELEGRAMS.

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues:—

Montevideo, 15th.

Everybody still chattering about yesterday's affair, which is now believed to have been caused by a submarine eruption.

The official paper calls on the Police to imprison the correspondents who telegraphed the false news.

The Patagonia is believed to be at Flores Island.

Awful heat.

Great crowds bathing to-day, in spite of yesterday's fright.

Another rumpus brewing with Brazil about some person having been tortured.

Neither Senegale nor Patagonia as yet in sight.

Decree out about National Exhibition in April next.

THE MONTEVIDEAN DISASTER

The unequal and unusual tide which in an instant covered the spring-board of the bathing department at Pocitos has given rise to the belief that down on the Patagonian coast some earthquake or tidal wave has occurred, and that soon we shall have disastrous news from the coast south of Chupat. Many parties of an enquiring and scientific turn of mind connect the "glorious sunsets," and the very extraordinary twilight which we now witness every evening, with the disturbed tide which spread such desolation in Montevideo. Most of our readers will have noticed that on many nights last week the moon was of an intensely green color, whilst, according to the papers, received by the mail, people in Paris state that on many nights last December the moon was blue. The attention of Europe is directed to these phenomenal sunsets, which now in the Plate are repeated every evening, the appearance of the sky being one of the most indescribable beauty. Some evenings the sky is blood red, the next a kind of gloriously diffused orange color, and from the mariners arriving we hear the sea is frequently quite yellow.

A London correspondent says: There was again a brilliant sunset to-day, though not equal to those of Monday and Tuesday of last week. The sky was first yellow, giving the crescent moon a decided greenish tinge, and then it became red, this phenomenon lasting a full hour after the sun's disappearance. Indeed, the duration of the illumination so long after sunset has been the most striking effect here, where the period of twilight is perceptibly shorter than in London.

In connection with this most interesting of subjects, we give the following letters, which we cut from a late number of the London *Times*:—

Sir,

The evidence given by Mr. Symons as to the prevalence of unusual atmospheric effects in various parts of the world, leaves little doubt that the red glow observed last week and on November 8th, 9th and 10th, was due to the diffusion of volcanic dust in a region much above the highest clouds.

The vesicular nature of pumice, each particle consisting of a small bubble of glass, would allow it, after being shot up by the eruption to an enormous height, to be carried without precipitation to all quarters of the globe, and at the altitude attained it would be far removed from the action of vapour and weather. Nothing like this diffused atmospheric glow after dark and one or two hours before sunrise has been observed before, and a singular effect must have its origin in a singular cause. Yesterday and on Saturday the glow, which was of an amber colour, did not become bright until about an hour after sunset, and was partially obscured by clouds. The phenomenon has been mistaken for Aurora Borealis in France and elsewhere, but requires a name of its own.

I am yours faithfully,

F. A. Rollo Russell.

Pembroke-lodge, Richmond,
Dec. 3rd.

It may amuse or edify some of our readers who do not believe in the end of the world, or to read the following startling article, also from the *Times* on the "death of the moon," a theory which we have the courage to reject, although some of the greatest thinkers in Europe lean to it.

Sir—The following extract from the *Gold Coast Times* of September 14, may prove of interest to some of your readers. The phenomena alluded to in this paper were seen at Cape Coast Castle:—

"On the 1st or 2d of this month the sun was described as being blue in the morning. It seems it rose, as usual, and that the clouds which passed over it, from their greater rarity or density, gave it different apparent shades of rose colour, pink, and so on. After the passage of the clouds its appearance through the haze was white like the moon. In fact, an Englishman is said to have taken it for the moon."

It may be mentioned that a fortnight or three weeks previous to this occurrence, several severe earthquake shocks were experienced on this part of coast.

I am, Sir, yours, etc.

W. Brandford Griffith, Jun.

The Temple, Dec. 3.

The moon is dead. It has not life enough left to ooze forth the tiniest mud volcano or spurt out the feeblest geyser. No throb ever reaches its surface, and not the faintest rumble is ever echoed from its jagged mountain sides. No earthqunke wave can ever sweep its island shores, for earthquakes there are things of the almost infinite past, and the last drop of water quitted the surface of our planet eons ago. Its very atmosphere has deserted it, and if, indeed, there was a "man in the moon," he could never hear the sound of his own voice. But if by some means this mythical man could have witnessed the "Ischia disaster" and the "Java catastrophe," how he would have longed that any such manifestations of life were possible on his lifeless planet. That occurrences like these referred to are calamities everyone must admit, and some may be apt to maintain that man's arrival in his earthly home has been premature, and that "providence" would have acted more wisely and humanely had he postponed man's advent on the scene until the "internal fires" had exhausted themselves. But when that happens, geologists tell us, we may look upon it as the beginning of the end. Not even the 600 deg. heat of the sun which beats upon every part of the moon for a fortnight at a time is able to rouse within its bosom the faintest sign of life. There is evidence enough to show that at one period its volcanic activity must have been of the most stupendous kind, far exceeding anything ever witnessed on its mother earth. But that has gone with its water and its atmosphere, and taken with it all possibility of life. We are told that our existing volcanoes, and geysers, and mud-holes are but the dying remains of what at the time must have been a volcanic activity almost universal. Instead of spasmodic eruptions at a few isolated spots, we had a constant outpour of volcanic matter from wide fissures extending across the earth's surface for many miles. That the earth has not yet, however, entirely lost its vigour is evident from the Java outburst, which is the most stupendous phenomenon of the kind on record. So long as the old earth is equal to efforts of this kind we need not mind its latter end. When the blood leaves the cold extremities and the heart has not vigour enough to send it it to the surface, the end is not far off; and when volcanic and earthquake manifestations cease from off the face of the earth, the end may be within almost measurable distance. Much of its ocean water will have been absorbed by the underlying rocks, and the atmosphere may be rarer and less life-giving than it is now; by and by, with the last pay of internal heat, the last drop of water, and last particle of air, all life will have vanished, and a dead earth will shine upon a dead moon. So long, then, as the mother of us all has any vigour left, we must expect her to manifest it occasionally as she has done recently at Ischia and Java; so that, lamentable and regrettable as has been the loss of life at these places, the catastrophes are not entirely without their bright side. Only when the earth is as dead as the moon will such catastrophes become impossible.

THE TIDAL WAVE.

The further details received of the phenomenon at Montevideo on Monday and its fatal consequences to a highly esteemed lady, leave little doubt as to its having been the result of an earthquake, the whereabouts of which has not yet been ascertained. The following is the best account of the affair we have yet seen.

"About 7½ a.m. the whole Southern beach was alive with bathers. Even at that hour the fearful heat that prevailed during the rest of the day was felt, although the sky was clouded. The sea was as still as a looking-glass, and only ruffled now and then by a sickly breeze. The bathers were disporting themselves at their ease when, at 7½, the sun was suddenly veiled by inky-black clouds, and the sea receded with such rapidity that even those who were swimming were in a second left high and dry on the sands. While the astounded bathers were discussing this sudden phenomenon, an enormous wave was seen tumbling towards them, along the whole length of the shore, a high and compact mass of water without a break in it from end to end. At once alarm seized the bathers, and they ran for dear life, with the white crested monster behind them, gaining on them every second. Then came a deafening noise: The wave was shivered against the rocks, and the water went rolling up the beach in angry masses, for over 20 metres beyond its usual limits. Two other waves as large as the first came rolling in after it at intervals of a minute and a half. Several of the bathers were caught by the wave and hurled up on the beach.

The news ran through the town like lightning, and, of course, acquired Three Black Crows dimensions before it had gone far. Some said that whole families had been drowned at Pocitos, that a similar horror had occurred at Playa Ramirez, and that the whole Southern shore was strewn with corpses, 100 being the lowest computation of the drowned. The excitement was tremendous and lasted for two hours; thousands rushed to the beach; but as the truth became apparent the alarm in the city subsided as rapidiy as it had risen.

At Playa Aguada the sudden receding of the waters caused several fishing-smacks damage on the rocks. The war-ships and other large vessels in port rolled fearfully to leeward with the successive waves, the French man-of-war Seconde dipping her yard-arms to the trees, and it was feared she would "turn turtle." Her gallant crew got a great fright.

The place where the wave was least felt was at the Gounouilhon Baths. At Calle Colon three bathers were tossed on the beach; one was all but drowned, when a herculean young fellow, named Perico, dashed in and saved him, although he remained insensible for an hour. Between Calle Zabala and the Gas House the worst effects were felt. Near the English Church and Calle Cerro, a lady and her little son of five years were saved by a cigar-maker named Figueroa. Two sisters, both wives of well-known "almaceneros," were carried away just as they were leaving the water. One was drowned and the other saved. A young girl who was bathing at the same spot was on the point of perishing, when an Italian fisherman dashed in and saved her. She is now bad with brain fever. The bathing-boxes at this spot were much damaged. At Santa Ana a little boy who was bathing with another was drowned.

An eye-witness says that at Playa Ramirez, when the bathers rushed in from the advancing wave, a Sister of Charity was in a wheeled bathing-box which received, the full shock of the sea. The box was turned over, but the good nun escaped with a few bruises.

There were not many people at Pocitos when the thing occurred, but one lady had a very narrow escape, and was saved by the bath boy. It is said that three children were drowned near the English Church.

CONSUL BAKER'S REPORT.

AGRICULTURE IN THE ARGENTINE REPUBLIC.

PROVINCE OF CORRIENTES.

This province, lying to the north of Entre Rios, and also between the two great rivers of the country, is a continuation of the Argentine Mesopotamia. It is equally endowed by nature with a fertile and well-watered soil, and with a climate which is almost tropical it rivals Paraguay in the exuberance of its vegetation. Its area is about 125,000 square kilometers, mostly devoted to pastoral pursuits, in comparison with which agricultural interests are of but small consideration.

While no wheat is grown, it produces maize, or Indian corn, tobacco, cotton, peanuts, &c., but one of its most important crops is *mandioca*, from the root of which a very highly esteemed article of bread is made. Fruit culture, especially that of the orange, is quite important, and the exports of this delicious fruit to Buenos Aires and Montevideo amount to many thousands of dollars annually.

Its most important city is that of Corrientes, founded in 1588, which, besides being the capital, has a large commerce with the Republic of Paraguay and the territory of the Missiones.

Other considerable towns are Goya, Bella Vista, Empedrado, Monte Caseros, Mercedes, Paso de los Libres, &c., but they are most inhabited by natives and half-breeds, who have no aptitude for the manual labor of agricultural pursuits.

PROVINCE OF CORDOBA

This is the most important of the interior provinces, possessing an area of 217,000 square kilometers, and exhibiting a great diversity in the configuration of the soil.

On the south it is "pampa" and on north and west begin the Sierras of Andes, in which are found inexhaustible mines of silver, copper, and other minerals. There is accordingly more diversity in the occupations of the inhabitants—not only cattle breeding but mining being favorite pursuits. Agriculture flourishes on the mountain slopes, which, being exposed to the sun and well watered, invite the cultivation of the vine on a large scale, while the valleys, owing to their constant climate, are admirably adapted to the raising of the silk-worm. The climate, however, is so dry that resort must be made to artificial irrigation; and this is yet accomplished in so rude and unsatisfactory a manner that agricultural pursuits, especially in the cultivation of cereals, are not attractive to the people. The capital of the province is the city of the same name, founded in 1573, and is the seat of the celebrated University of Cordoba, the second in age in either North or South America. There also is located the National Astronomical Observatory, under the charge of Dr. Gould, the distinguished *savant* of Harvard College. The province does not lack small towns and villages, in the immediate vicinity of which considerable wheat, Indian corn, lucerne, &c., are raised, the latter crop being used for forage for fattening cattle. In no other province, perhaps, is the artificial cultivation required, the natural grasses, which grow spontaneously, being sufficient for such purpose the year round.

PROVINCE OF SANTIAGO DEL ESTERO.

This province has a superficial area of about 108,000 square kilometers; a large portion of it, however, is covered with salines, which are entire unproductive. The capital and chief city is Santiago, founded in 1553; indeed it is about the only center of population in the province, much of which is still wild and unsettled. The occupation of the inhabitants is cattle-raising, agriculture having as yet scarcely a respectable foothold there. In the last few years, however, considerable attention has been paid to the cultivation of the sugar-cane, and I believe it promises good results. Very little wheat or Indian corn is produced, a good portion of the food of the inhabitants of the country departments being prepared from the fruit of the *algarroba* tree, which in different forms serves as nourishment for both man and beast. The province is somewhat isolated, and is at present anything but prosperous.

OUR INVESTMENTS IN SOUTH AMERICA.

The announcement that another Argentine loan for over £6,000,000 has received the sanction of Congress at Buenos Aires, and the conversion of the Uruguyan Debt upon terms ensuring a large addition to our investments in that country, naturally serve to direct our attention to the revival which has latterly taken place in South American enterprises, owing to the importations of British capital. For some years after the collapse of the foreign loans in 1874 and 1875—when suddenly the number of defaulting South and Central American States was increased from three to ten—there was an entire cessation from these borrowings. But latterly the number of defaulters has decreased. Uruguay and Venezuela have come to terms with their creditors, and the Bolivian debt has ceased to exist; while the negotiations set on foot with the Mexican, Costa Rica, and Guatemala bondholders have raised hopes over a yet wider field. But after all, it is in the directions of Brazil and the Argentine Republic that the great extension of South American investments has latterly occurred. In both cases, the letter of the foreign debt has been scrupulously kept during some trying years, and now they are reaping their reward, in that every application made by them upon this market meets with an immediate response. Looking back over the past ten years, it is probable that our investments within the Argentine Confederation have been fully doubled, while in the case of Brazil, we have added not far short of £20,000,000 to the amount held by us in 1873. The question therefore arises, whether we are justified in continuing thus to respond to these repeated demands—demands in one case, at any rate, not at all likely to be curtailed in the early future?

In the first place, it will be advisable to consider the extent to which we have already become committed to these various nationalities, good, indifferent, and bad. We are the better enabled to do this, for the reason that the great preponderance of South American foreign loans have been raised solely or mainly in this country, while the bulk of the guaranteed and unguaranteed companies in which our money has been sunk are purely English, in so far as their directorates and shareholders are concerned. The following statement may, therefore, be taken as an approximation to the amount of visible British holdings in such South and Central American investments at the present time, and probably is within the mark so far as nominal capital is concerned:—

British Holding of South and Central American Securities in 1883.

	Government Stocks	Railway and other Securities	Together
Brazilian	£22,000,000	£22,000,000	
Argentine	17,000,000	14,000,000	£31,000,000
Peruvian	23,000,000	2,500,000	25,500,000
Chilian	14,000,000	10,000,000	24,000,000
Uruguayan	2,500,000	2,500,000	5,000,000
Venezuelan	2,000,000	2,000,000	4,000,000
Colombian	2,000,000	1,500,000	3,500,000
Honduras	3,000,000		3,000,000
Costa Rica	2,000,000		2,000,000
Ecuador	1,700,000		1,700,000
Paraguay	1,500,000		1,500,000
Bolivia	600,000		600,000
Nicaragua			
Guatemala			
Salvador			
	100,000,000	56,000,000	156,000,000

Ten years ago, the total of these Government stocks held in this country was about £89,000,000; and the growth of £11,000,000 on the decade is a trifling matter. It is more than accounted for by the additional eight millions added in the case of Brazil, and six millions in that of the Argentine Confederation, including Buenos Aires. Otherwise there has been no increase; and in the case of Bolivia and Venezuela there are actual reductions of debt. But when the question of our investments in guaranteed and unguaranteed railways, tramways, gas, mining, improvement, and other undertakings comes to be considered, it is found that a very much greater addition has latterly taken place; and we shall probably not be far out in estimating the addition to our total South American investments over the decade at £40,000,000. In this increase Central America can hardly be said to have taken any part whatever, for the recent expansion in Mexican commitments has not come here. But to Brazil may be assigned some £18,000,000 of the increase, and to the Argentine Confederation £16,000,000, and the major portion of those sums has been obtained for the development of railway enterprise. Probably the interest return upon the total £156,000,000 does not exceed £6,000,000, or barely 4 per cent.

A good deal has latterly been written respecting the valuable nature of these investments, and there can be no two opinions as to the merits of the Dom Pedro II. and the San Paulo railways in Brazil, or of the Buenos Aires Great Southern line. But there are others that have proved far from prosperous, and apart from their Government guarantees, there is nothing prominently to recommend these investments. But then, most of the companies have these guarantees. We have recently had occasion to refer to the heavy burdens of Uruguay; but the Argentine Confederation has latterly shown a budgetary equilibrium, and just now is certainly prosperous. Brazil, however, has not attained to that happy condition, although she contrives to make the most of her deficits, by adding the previous year's deficiencies to each current year's expenditure. Still, the position of Brazil is a problem, because, while there is an admitted deficit, and the country is burdened with a depreciated paper currency, the credit of Brazil stands pre-eminently first in South America. Brazil, in fact, covers nearly one-half the continent; she is Portuguese rather than Spanish; her ruler is universally respected; and the Government is stable; and if to these advantages, the Brazilian Chambers now exhibit signs of restricting the outflow of new guaranteed companies, we cannot but think that such a policy will commend itself to the better judgment of the nation. She has already gone as far as, if not further than, is prudent in this direction.—*Economist*

THE MAHDI.

Vienna, Dec. 6.

The clerical newspaper *Vaterland* has published a detailed account of the religious and political revolution in the Soudan, by a Catholic missionary, Father Johann Dichtl, who was a witness of events in that district until April last. According to his description, the Mahdi, Mahomed Ahmed by name, comes from Dongola. He is about 40 years old, tall, and powerfully built; his skin being of a reddish-black hue. He and his two brothers were for a long time employed near Khartoum as ship carpenters, in the building of Nile boats. But he felt another vocation, and went to a Sheikh on the island of Tuti, near Khartoum, a little to the north of the confluence of the White and Blue Niles, to study with him. Some years afterwards he took an inferior degree and began the life of a Dervish, of the strictest order. He retired to the island of Kana, on the White Nile, and there took up his abode in a dried-up cistern. He never left this habitation for six years, except on Fridays to go to the mosque, and then retired again to his den. In this way he obtained an odour of sanctity over the whole country. Everywhere reports were circulated of his contemplative life and his fasting, of his weeping as he read the Koran, and of his kindness to all who approached him.

A practice arose to know this wonderful man, and to ask his advice in religious matters. Large crowds of pilgrims came to see him, who, on their return, spread his fame. When he was widely known as a saint and was sure of his influence he announced his mission to a large assembly of Mahomedans.

"Twice already," he said, "I have been called upon by the Archangel Gabriel to draw the sword of Faith from the sheath, in order to reform the bad Moslem, and to found a Mahomedan world-empire, which will secure the general peace of the world."

He added that his mission came from the Prophet, who had not been able to fulfil it. "Follow me, therefore," he cried, "for I am the Mahdi, and I will lead you into the kingdom which Allah has prepared for the Faithful." He referred, of course, to the Mahomedan tradition that another and last Prophet is to come, with the name of the Mahdi—that is, "Given by Allah."

Paris, Dec. 4.

M. Lemoinne writes in the *Débats*:—

"It is probable that Egypt, even if she continue to exist as a Power, must relinquish the possession of the Soudan, dearly purchased by Mehemet Ali more than 50 years ago. What is certain is that England is absolutely responsible for Egypt, and bound to defend her. The triumph of Arabi and his Protovians would have been the establishment of anarchy; the triumph of the new Prophet, that of barbarism. The danger to civilization and to Europe is to-day what it was yesterday, and concerns us as well as England. The Egyptians cannot be counted on to defend Egypt. At most the natives might be formed into a sort of gendarmerie, commanded by foreign officers, but we see of what little use they are away from home. As for their nationality, they have none; they have ceased to have any. The English occupy the country, and will not leave it. We have always said so, and repeated it when they pretended that they would leave. After the recent events it will be less possible than ever for them to evacuate Egypt.

"To those who may think us too easily reconciled to this, we will merely put one question. If Egypt relapsed into anarchy or barbarism, and if the new Prophet took possession of it, what would become of all European interests—to say nothing of the general interests of civilization? Can it be supposed, for instance, that the African conquerors would take care of the Suez Canal out of love for French and English shareholders? Can it also be supposed, that this rebound of Islamism in the Mediterranean would not directly threaten French rule in Algeria and Tunis?"

THE PRESENT EMPEROR OF CHINA.

In January, 1875, the young Emperor Tungchih, the only son and successor of Hienfung, whose life had closed 14 years before, died of small-pox at Pekin without leaving any child to succeed him on the Dragon Throne. A family council was hurriedly summoned in one of the inner chambers of the palace; and by the influence of the two Empresses—the one the Dowager Empress and the other the Empress Mother, and both of them widows of the Emperor Hienfung—the assembled conclave of Manchu princes came to a unanimous decision to proclaim Tsaitien, the infant son of Prince Chun, Emperor. The boy was sent for on the spot, and placed, "cross and sleepy as he was," in the middle of his uncles, by whom he was hailed and done homage to as the Hwangti. Thus was the critical question of the Imperial succession decided after a single midnight conference, and the Manchu dynasty was continued without raising any internal disord, or exciting any external commotion. The reins of power remained in the hands of the two Empress Regents and of Prince Kung; while the boy Tsaitien became the Emperor Kwangsu, which means "Illustrious Succession."

Kwangsu was born on August 15th, 1871, and his father, Prince Chun, was the seventh son of the Emperor Taoukwang, and brother of Hienfung. Prince Chun had made himself notorious at the time of the Tienstin massacre as the leader of the anti-foreign party; but the immediate consequence of his son's elevation was not, as we would imagine, his acquiring some prominent official post, but his retirement altogether from public life, as "it was impossible that a father should pay homage to his son." It is probable that, but for this latter consideration, the son of Prince Kung would have been chosen for the Imperial dignity; but it was felt that the Empire could not spare either the good sense or the long experience of that Minister. Several edicts were issued in the name of the boy Emperor, summing up the deeds and extolling the virtues of his predecessor; while an alleged valedictory address from Thungchih was made public wherein he accepted Kwangsu as his heir. A few flowers of rhetoric were thus sufficient to smooth over a great dynastic settlement, and to avert the untoward consequences that might have ensued from the failure of the direct line of succession which occurred for the first time more than 230 years after the proclamation of the Tartar dynasty at Pekin. The *Pekin Gazette* of the years immediately following his succession are full of reference to his education, and to the necessity of "the effectual training in the right path" of the young Emperor, and of having "none but persons of staid and correct conduct" in attendance upon him. Another notice mentions the selection of a "hahachutze" or "whipping boy," who suffered for the faults of his Imperial master. The principal tutor was an eminent member of the Hanlin, whose father had been the preceptor of the Emperor Hienfung, thus giving an appearance of family right to the difficult office. In matters of pleasure, too, the wants or wishes of the youthful ruler were not overlooked. Attention is paid to his exercises and sports. Two cases of a special jam are sent to him each year for his own personal use from Uliasutai, in Mongolia; and this must have been a great luxury, as an elaborate apology was sent by the Governor in 1879 for the cold weather having prevented the fruit reaching maturity, and for its being consequently impossible to make the jam.

On the 18th of April, 1881, the Empress Dowager died, leaving the principal governing authority in the hands of her colleague, the Empress Mother, Tsze An, by whom the Regency is still conducted. Meantime Kwangsu is growing up, and a recent number of the *Pekin Gazette* speaks of him as being "very bright, and making great progress." If there be any truth in this Court flattery allowance will very soon have to be made for the views and wishes of Kwangsu himself; and the personal character of the boy ruler is an element that cannot be excluded from the consideration of Chinese politics. The extent of our knowledge of the views with regard to which he has been brought up is so limited that we cannot say with any certainty whether he inclines more to the enlightened policy of his uncle, Prince Kung, or to the Chauvenism of his father, Prince Chun; but there are some Chinese authorities who prophscy that, by the the time he is of age to assume the personal government of his dominions, the troubles of his country will have ended, and that the minority period of more than 25 years will have served to restore to China peace in her home affairs and independence of action in those that affect her relations with the outside world.

THE THREE DAYS' TERROR.

"Oh! suffering sad humanity!"

You will remark that the usual "to the Editor, dear Sir," is not used. Don't add it. We (there are three of us) don't wish it. For why? Because we are anxious to see this effusion in print, and, although we are aware of the pre-eminent "progresista" predilections of the gentleman suppressed (for once) by omitting the heading, we have some misgivings as to our subject being altogether to his liking.

Our object is most philanthropic, and we know that your energetic chief would give the coat off his back, or his other gingham, in the good and great cause of Progress, but, unfortunately, we have nothing to tell of camps, or cows, or cedulas, or Curámulal! (please see that this word is properly spelled—"curá" a cairn of stones; "mulal," umbrella-shaped fungi.)

Thinking that for these reasons, gallant and courteous though he be, our communication would not find favour with him, we were, therefore, of a mind to send this to the "Editor's Table," but another difficulty arose—how to address it—*i.e.* the Table—"to the Table, dear Editor," does not seem correct, and "to the Editor, dear Table," may be equally objectionable and far too familiar for spinsters even of uncertain age ("long in the tooth" I have heard this venerable period described by irreverent and *unsuspecting* young men) to use in writing to gay old bachelors! So our quandary ended in trusting to your goodness.

In broaching our subject—no less than "Tomfoolerias Carnavalescas," we have endeavoured to make this preamble as serious as a médico's report on a "caso-sospechoso," which, fortunately, proves to be nothing more than "orchamatitis," a surfeit of orchata and masitas;

Well! the shopwindows already display, in a wicked and shameful way, "pomitos" labelled "La delicia Porteña, "El elixir Argentino," et cetera. We, the three of us, nearly fainted—were transfixed for a time in catalepsia—"our hearts dropped into our hose." We avoid quoting the Latin, as we should be called "too dreadfully Girtonized." We imagined to ourselves what we should have again to undergo in this year of grace—the grossly vulgar horse-play of bygone days, and we said—"can such things be!"

"Down with the Lord Mayor!" "Up with Otto!" These are the watchwords of the future. We shall memoralise the President (who cannot refuse three young ladies), to abolish the 24th, 25th and 26th of February from the kalendar.

We decided to inform, in the meantime our Plenipotentiary, your genial chief, and implore the loan of his umbrella, but we all at once recollected where that respectable relic was planted, when, with a sort of Dick Swiveller ingenuity, we thought of "the *Standard*," not as a loan in lieu of his umbrella, but as a means of ventilating our grievances and insisting on peremptory strides being taken to prevent the primæval barbarities and "rococo" customs still in vogue during the Buenos Aires Carnival. In our great agony we must address some one——Dear *Standard*, help, ho! How would you enjoy having your "divided skirt," your bonnet, á la fine fruit, your ribbons couleur de rose, gloves á la Suéde, and other fal-de-lals bespotted and besmeared with very questionable perfume, squirted from "pomitos" in the hands of barbers' boys.

Is it not quite too awfully ridiculous?

And this is only the thin end of the wedge. As the fun (!) waxes furious, waters of all sorts are freely used in large quantities.

Why! oh, why not gently pummel us with tiny nosegays, or nice, neatly done-up packages of bons-bons? Married and unmarried—old and young—*everyone*, would be amply repaid by SMILES and GLANCES, that, according to a delightful poet, "make the miser's treasure poor."

Dear Editor, are you not with us? No more "tomfoolerias, Carnavalescas" Let the edict go forth—"Pomitos prohibited—destruyase, rompase, derramase ——!"

But we will not occupy more of your "valuable space" with invective satire. We only desire it to be made known that our own Special Pleniputentiary is powerful, and that, as a "dernier resort," a Bill advocating "Lynch Law," during Carnival, can be passed in the twinkling of a lamp-post. So silly "pomito" squirters beware!

Are our sufferings not already manifested in this city of the scented zephyrs (brévete)? — 'pclept Buenos Aires, the badly-paved. Heat, high prices, no water, pestilent boys selling tickets of bogus lotteries, beggars, afternoon and daily papers with school exam, reports and wearisome guesses about where the other half of the moon begins, tramway bugles (bless them; you know what I mean), and corrugated granite pavement; are not these enough without "pomitos?"

We quite forgot to send you the customary sunflower and lily on New Year's Day, but the 14th of February is now within a measureable distance, and . . . . "nous verrons."

Believe us always, dear Mr. (dear me! What *shall* we call you?)

Yours sincerely,

Alice ———,
Bertha ———
Charlotte ———

EDITOR'S TABLE.

Nothing but that keen sense of duty "which distinguishes us" (as so many of our colleagues say) would induce us to write a line yesterday. Dante's trip to Avernus was cool and pleasant compared with the raging temperature. Everybody was fried alive inside and out, and many people said that such dreadful heat must be the forerunner of some convulsion of nature and, perhaps, another tidal wave at the Mount or here. The general belief yesterday was that the Wave was the effect a submarine convulsion of the coast; and as there may be more where that came from, we strongly advise bathers at Pocitos and elsewhere to keep their weather-eye open.

Talking of bathing! We received the following note, in a fine, round business hand, yesterday:—

To the Editor of the *Standard*.

Dear Sir.

Some one should put in a good word for the Piedad Swimming Bath. In pronouncing that at Belgrano "just as good" your bathing subscriber doubtless believes what he says, but few will agree with him. The Bath at Piedad is preferable for its central position; for the attention that is paid to all minor details, and for the greater depth of water. It possesses an advantage over all English swimming baths viz. the saving virtue of cleanliness. The way it is patronised shows how it is appreciated and should your B.S. canvass the opinion of the naked throng there any afternoon he will get a unanimous verdict of "cheap at the money.

Yours etc.

Another B. S.

The benefit for the Irish Orphanage given at the National Theatre on Monday night was a most brilliant success. All the boxes were occupied, and, notwithstanding the intense heat, the theatre was well filled. We have no words sufficient to thank the ladies and gentlemen of the Latham Company for their kind services for our orphans, nor still less histrionic ability to pay due merit to their acting. Had old Goldsmith witnessed the performance he would have recognised the perfect interpretation of his gem composition, notwithstanding the great lapse of time since he wrote it. Mr. Latham was never better on the boards of a Buenos Ayres theatre than on Monday night; and, in fact, without particularizing any of the artists, we may say that they all stooped for the little orphans and all conquered. The benefit must have given very handsome results, and the prayers of the orphans are alike the recompense of the actors and the audience.

We have always hitherto understood that the sounnolent city of Santa Fe, not Rosario, was universally dubbed "Sleepy Hollow." Rosario is evidently not sleepy, but perhaps too wide-awake, when a letter published here on the 13th can be answered from Rosario on the *twelfth*. No one would dream of calling old Rosary sleepy after this.

The papers are full of cases of drowning, stabbing, suicide and all kinds of horrid things. The 'viento Norte' is at work. A prophetess who has never been known to be wrong told us yesterday that the year 1884 is big with the most terrible events, most of which will come with a rush towards the end of it. One would fear, from the 'signs in the sky,' that the long-expected end of the world is not far off. The death of that well-known lady, the Moon, is a serious business.

Peter Fernandez is in durance vile for selling prohibited Lottery tickets. This is hardly fair, considering that every "agencia" in town sells them without let or hindrance.

We have to thank the Minister of War for sending us yesterday the beautiful map of the Southern Chaco, as taken by Colonel Obligado's Expedition last year. Lt. Colonel Host, the most distinguished Engineer officer in the service, drew up the map, which shows all the Murrietta lands, a great part of which are splendid in the way of timber. We invite those interested in Chaco lands to call and see this map.

The Tagus sailed yesterday, Mr. Douglass Hamilton, H.M. Minister in Ecuador, took passage in her for England. The passengers were all but fried alive when going off. The planks of the passenger mole were all but red-hot, and those with thin-soled boots danced along like hens on a hot griddle.

There was a rumour in town yesterday of a smash on the Rio Cuarto Railway, in which a "persona conocida" was killed.

The new Chilian Minister, Dr. Ambrose Montt, will present his credentials to-morrow to President Roca. The ceremony will be an imposing one, it is so long since a Chilian Plenipotentiary has been received in the Red House.

The Rowing Club meeting at Tallaforro and Sanchez's auction mart will be a lively one, in consequence of the "incident" with Mr. Lopez, an unprecedented case in any Club. We hear that the B. A. R. C. is in a most flourishing condition.

We regret to hear that Mr. Cooper, the widely popular Manager of the Southern Railway, met with a slight accident in the Calle Piedad Baths the other day. He knocked his head against the wall of the bath while taking a dive, but we believe the consequences were not very serious.

This is truly a week of horrors. On Monday the driver of a tramway at Moreno and Solis ran over a little Italian girl, killing her instantaneously. The cause was entirely due to negligence, as the driver, instead of watching in front, was regaling his vision with the antics of a monkey that some Neapolitans were exhibiting at one of the corners. A cry from a passer-by roused him to a sense of the danger, and he made every effort to stop the car, but in vain. The little creature was almost bisected by the heavy wheels, and the spectacle was truly horrible. To add to the horror of the scene, the mother soon arrived on the spot, and her anguish was something indescribable—all the result of a slight negligence.

The fire in the Calle Piedras was only a very poor affair, nothing worthy of notice having occurred. One room only suffered, and then the blaze was got under. The fuss that was made about it, independent of the water supply, would have sufficed duly for its utter extinction.

We beg to acknowledge the receipt of our untiring friend Mr. James Fitzsimon's annual report for last year on the National College in Corrientes. It is nicely got up, and calculated to prove as interesting as anything in the line can. We will peruse it at our leisure and extract largely from its immense fund of information, in the meantime while complimenting Mr. Fitzsimon on the excellent result of his labours.

Heavens! At 3 p.m. yesterday Croppi's thermometer marked 102 in the shade!!! Ye gods! Croppies, lie down"——and die.

Yesterday was the 62d anniversary of the Provincial Bank, which was established in 1822 and then called the Discount Bank. Dr. Manuel J. Garcia, father of the Argentine Minister in London, was its first President.

General Sarmiento will start for Chile on the 25th inst. He goes by sea.

The swimming baths in Calle Piedad are doing such a roaring trade, that the accommodation of dressing boxes falls far short of the demand. Four and five bathers have to take the same cabin, and, as a result, some cases of pocket-picking took place yesterday. We warn our subscribers against this danger. The "empresa" ought to provide locked drawers for valuables, as is always done in Europe.

There was an elopement in Calle Cangallo on Sunday at 4 p.m. The fair delinquent is fat and forty-two, and married. The Lothario is younger. He had to fight a Gallego porter at the door before he could carry off his frail prize. The Gallego bolted to the roof, and when he came down the lady was gone and her husband was just entering the door. Tableau between husband and Gullego, who was supposed to act as Cerberus.

One of the numerous editorial staff of the *Républicano* in Tucuman has been violently assaulted and grievously ill-treated. We tender our suffering colleague our sincerest commiseration. Politics of course are bound to be at the foot of it.

THE TIDAL WAVE.

Buenos Aires, Jan. 15th, 1883.

Dear *Standard*

I was at the bath at Pocitos yesterday morning when the miniature tidal wave came near, costing the lives of some of the bathers.

I was interested as much as any other in taking note of what happened, and yet I saw no "tromba marina," or anything that could by a powerful stretch of imagination resemble one—the morning was warm but not unpleasantly so, a slight breeze was stirring and there was nothing to indicate possibility of any uncommon event taking place; the grey cloud which the *Nacion* correspondent saw advancing meant no more than clouds generally do.

What is a positive fact is that the waters rose about 3 feet 6 inches in about 10 seconds and consequently those who, through not being able to swim did not dare go beyond armpit depth found themselves suddenly in 7 or 8 feet of water and would have been drowned but for timely assistance, the three ladies that were saved have to thank, in a great measure a well known contractor and his nephew for being restored to their friends; these gentlemen had just finished dressing, but without any hesitation jumped into the briny, notwithstanding the impediments of clothing, and brought the ladies to land.

From all that I could find out last night, up to the moment the Minerva left, not more than three persons were drowned, possibly less.

Yours

Starfish.

IT IS GENERALLY ADMITTED THAT there cannot be anything more exquisitely delicate for perfuming the handkerchief than MURRAY & LANMAN'S FLORIDA WATER; but is great and distictive property is its adaptability to the uses of the bath. It is the only perfume that we know of *especially and particularly* suitek to use in this way. The power it has of imparting to the waters of the bath great soothing, refreshing, and invigorating effects, is peculiar to itself.

ON 'CHANGE.

January 15th, 1884

Cedulas A	101¼
Cedulas E	88
Cedulas F	85½
National Bank Shares....	129½

Business on 'Change to-day was restricted by the intense heat; the Bolsa hall was in a blaze, and all the free fans in the place could not impart a moment's coolness to the heated brains of the ring.

Cedulas ruled weaker than yesterday, and people who want to get rid of the stock sell disposable on long dates at ¼ to ¾ over current rates. National Bank Shares did not give way again to the extent looked for, but closed at 129½ buyers, and rather better in demand. Series F was more in demand than yesterday, and in fact the only 'novedad' in the market was the sale of one lot of Municipal Bonds at the very humble figure of 80, which shows how the wind blows in that quarter. The retirement of Dr. Mansilla and Don Marco del Pont has not served the credit of the board, and Municipal Bonds are offered as freely as black berries.

The despatching of the Tagus's mails was the business of the day. We hear that a good round amount of exchange was passed for this mail at 47½. It was a truly terrible day for the passengers to go out to the Outer Roads.

Colonel Host's new map, of the Gran Chaco, was out to-day, and can be seen at this office. It shows a portion of the Murrieta lands, and is very beautifully got up.

There was nothing further up from the Mount about the tidal wave at the hour of yesterday. Many parties on 'Change now are beginning to think with the Savants of Europe, that the "Moon is Dead." We refer to the subject in our leading columns.

The greatest interest is taken still in lands. All the maps and plans on the Bolsa are constantly occupied, and much fresh money is going into outside lands. We heard of a purchase to-day by a well-known Argentine capitalist of 16 leagues of prime estancia land on the borders of Santa Fe and Buenos Aires, at $225,000 per league. This land is not bought for resale, but is to be immediately wire-fenced and stocked with 10,000 cows.

The list of Railways &c., which we published this morning, was much commented on. Few of our readers have any idea that there was so much going on in the country as we have shewn by our list.

The heat and the thermometer flattened everything on 'Chenge to-day; 105 Fahr. was too much for either bull or bear, and the business of the day was centred far more in the grand swimming bath alongside of the River Plate Bank, where this afternoon over 300 bathers attended. We may contradict the rumour that the clerks of the different banks, and the staffs on the various newspapers are admitted in free. These gentlemen pay the same as every one else, but we hear that it is probable the "empresario" will give as premium one monthly free ticket to the cleak who is the best swimmer. In days of yore, Don Juan José Mendez, of Corrientes, was said to be the best swimmer in Buenos Aires, until he lost a celebrated swimming wager with an editor in the Lujan river. Don Eduardo Madero backing the editor and Dr. Manuel Quintana the Correntino; since then there have been but few swimming wagers, but the new swimming bath in Calle Piedad may revive us all. We must accept it as a new sign of the times, and the splendid profits of the establishment prove clearly the great want in this city that it has met. The swimming bath in Belgrano was the pioneer of the movement, which we all must accept as a most healthy and desireable one.

The Lord Mayor it seems, is not responsible for the great delay about the Plaza Victoria. He is awaiting the decision of the "Consejo," and the complaints of the public about the truly wretched state of the Plaza should be directed against the "Consejo," and not against the Lord Mayor, who is more impatient than any one else to have the Plaza set in order.

The sales at the ring during official hours were:—

Cedulas—
For cash E 20,000 at 88
For Jan. 31st E 40,000 at 88⅛
For March 31st E 10,000 (d) at 88⅝
Sales, 70,000.

National Bank Shares—
For Jan. 31st 4,300 at 129½-129-½-129-¼ to 129⅝-¼-¼-129-¼

For Feb. 29th 400 at 130½-⅝
Sales, 4,700

Municipal Bonds—
For cash 1,000 at 80

The following are the passengers who left in the R.M.S. Tagus to-day:—

T A Bayley
T A Cohn
P Cesar Payro
E Quintano
W A Palmer
Douglas Hamilton

and ten 2nd and 3rd-class passengers.

Mr Christophersen having resigned the agency of Messrs Yarrow, Hett and Co. of Montevideo and of the Pacific Steam Navigation Company, we have much pleasure in stating that Messrs Green and Johnson have taken over same; both gentlemen were warmly congratulated on the appointment.

There was mighty little done on 'Change at afterhours, Nat. Bank shares ruled very firm at 129½ buyers, whilst Cedulas are weak at 88, sellers.

The sale of a Concordia cargo of salted hides is known to have been concluded, but all particulars are held up.

Mr Leighton of Montevideo was welcomed on 'Change, also Mr Evans from Tuyu, and Mr. Baker, estanciero, Azul; also Mr Short from Bahia Blanca.

The Patagonia, it seems, is not due until to-morrow.

The notice from the tramways about the fares in the new national currency was given round to day. The 5 cent note as we surmised, only passes for the old paper dollar. The Companies of course gain slightly by the change.

Exchange on Montevideo was down to-day. The Italian bank drew largely at 2½ premium. Some exchange on London passed to-day at 47¼.

In discounts we could hear of nothing The Provincial Bank discounted five millions m/c. currency yesterday.

It is whispered on 'Change that there are telegrams from London offering for the whole thirty million loan, conditioned on no more provincial loans.

Messrs. Musgrave, O'Grady & Co., of Ajo, have sold 13,000 sheep, Lincoln at 38-60 and Merinos at 33; also one thousand head of cattle 'al corte' at $200 ⅝. Some lots remaining unsold.

Mr. Gonzalez, the Government surveyor on the Rio Negro, has resigned, which is much to be regretted, as he was an excellent and painstaking Government surveyor, and had made all the surveys for the new colonies on the Rio Negro; the cause of his resignation is the extraordinary delay here in approving of the survey. We have already called Dr. Plaza's attention to the unjustifiable delay about approving Mr. Casallares' survey of the Section IV; the lands on Colorado and thence along the coast to the Rio Negro. The Minister has promised to have the matter at once despatched, meanwhile they are writing to us from London about this matter and the delay injures the very credit of the country. We trust Mr. Gonzales's resignation will not be accepted as he is much esteemed by Governor Winter and all the people of Biedma and the Rio Negro.

Most people retired to-day early from the Bolsa, as the heat was truly awful, and everyone who could left for the suburbs.

Mr Casey sold this morning 5000 ar. wool from 97 to 65, good wools are in good demand.

From the Plaza Once de Setiembre we have the following:—

111 waggons arrived with produce.

The arrivals were:—

18,800 @ of wool
1,705 bags of wheat
706 bags of maize
173 bales of hay

and other produce. Market flat in general.

The sales were:—

Wool—
700 @ special, 112, Genta
6,500 @ special, superior, good and regular, 105, 100, 95, 90, 86, 85, 74, M Chillado
750 sup., good, reg. and inferior, 90, 87, 60, Robbio

St. Andrew's Scotch School.

The committee of management have much pleasure in informing Parents and Guardians of pupils, that through the exertions of the Home Committee, they have succeeded in securing the services of Mr William S. Connacher to fill the post of Head Master and of Miss Dale as Lady Teacher. There will thus be no interruption of the curriculum of the school through the retirement of Mr Hutton.

Mr Connacher and Miss Dale come among us with the highest Testimonials which the Committee have much pleasure in putting at the disposal of the public and may be obtained from Mr Grant, Cangallo 69.

The Christmas Vacation commences from the 22nd current, and the School will be reopened on Monday the 14th January, 1884.

The School Fees for next session have been arranged as follows:—

For Children of Parents belonging to Scotch Church:

Elementary Class.....	3½	$m/n per month
Junior Class.....	4	do do
Senior Class.....	5	do do

For Children of other Parents:

Elementary Class.....	3½	$m/n per month
Junior Class.....	5½	do do
Senior Class.....	6½	do do

British Academy

Robert Bird
Director

253-Calle Chile-253

The undersigned begs respectfully to inform parents and the public generally that on the 15th January 1884, he will reopen his Academy, at the above address, and will use every effort to merit a repetition of former patronage.

The boarders will receive the immediate attention of the Director and Mrs Bird, who will spare no pains in order to secure their moral and intellectual culture as well as home comfort.

Besides the ordinary course of education, boys are prepared and sent up for examination at the University.

Boarders are provided with all necessary furniture.

The Academy is a fine building, fitted up with every comfort, regardless of expense, and the play ground is spacious, covering an area of six hundred square yards, beautifully shaded with trees and vinery, and affording every amusement.

ROBT. BIRD.

EDWARD CASEY
80—Reconquista—80

Banco de la Provincia

Recibe depositos voluntarios que no bajen de $400m/c. y $16 fts. de curso legal y oro efectivo.

Estos depositos de moneda corriente y moneda legal ganarán interes si permanecen 60 dias; pasados estos se los abona interes desde el dia de su entrada.

Los intereses se pagan en los primeros dias del mes ó en o momento de retirar los depositos; y los no cobrados durante el año se capitalizan concluido el del deposito.

Todo deposito á premio se inscribe en una libreta que el Banco entrega al depositante, en la cual constan ademas las salidas por pago de intereses; no entregandose ninguno sino en vista de la libreta respectiva.

Recibe depositos comerciales, disponibles en todo momento como los anteriores.

Recibe depositos a oro pagaderos á la vista sin interes y á plazo de 60 y 90 dias, ó mas, los que serán devueltos en monedas de oro de curso legal.

Descuenta tres veces á la semana letras con firmas abonadas á plazos de 90 dias, y tambien pagarés de comercio desde siete dias hasta seis meses, con la condicion de ser abonados integros á su vencimiento.

Descuenta tambien a oro efectivo, pagarés de comercio desde siete dias hasta cuatro meses, con la condicion de ser abonados en la misma especie a su vencimiento.

Da libramientos a tres dias vista sobre las Sucursales de Dolores, San Nicolas, Chivilcoy, Mercedes, Lobos, Salto, Azul, Baradero, Chascomus, Tandil, 25 de Mayo, Exaltacion de la Cruz, San Pedro, Pergamino y Las Flores.

Las Sucursales dan cheques contra el Banco al portador, nominales y cruzados.

El Banco abona comision á los corredores en la primera introducion de las letras y pagarés á descuento.

Desde el veinte del corriente, y hasta nuevo aviso, regirá la siguiente tasa de interes y descuento para las operaciones á moneda corriente de curso legal y oro efectivo:

SE ABONA

Depositos comerciales m/c. y curso legal		3 o/o
Id	particulares a premio.....	5 "
Id	á oro á la vista, (sin interes)	
Id	id 60 á 90 dias ó mas.....	2 "

SE COBRA

En el descuento general de letras y pagarés, comercial y no-comercial, en moneda corriente y curso legal y oro efectivo..... 7 "

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Duran 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

78——ALSINA——78
El Miercoles 16 de Enero 1884
A las 2 p.m.

Remataremos a la mas alta postura y condiciones que se estipularan mas abajo, por orden terminante de su propietario, 65,000 hectareas de campos ubicados en la Seccion 2ª y 3ª de los Territorios Nacionales.

Los numeros que se ofrecen en venta son el 3, 4, 7, y 8 de la letra B- la mitad Sud del numero 23 y el numero 24 de la letra D, todos de la seccion segunda y el numero 3 de la letra A, seccion tercera Territorio Nacional.

Sos lotes 3, 4, 7 y 8 forman un cuadrado perfecto de 16 leguas, situado ventajosamente a diez leguas al Oeste de la Estacion Trenque-Lauquen.

Por el telegrafo hace tiempo que nos hallamos en comunicacion diaria con este punto de creciente importancia.

La diligencia de Vallee cruza estos campos en su trayecto lejano al pueblo Victorica que se halla 35 leguas mas afuera.

El trabajo solo la locomotora para trasportarnos en dos dias de la capital de la nacion a la civilizacion naciente pero vigorosa de la frontera.

Felizmente esto se ha conseguido.

Los trabajos del ferro-carril del Oeste se han dividido en tres secciones.

La primera al 9 de Julio se ha abierta ya al servicio publico.

La segunda que va a Las Mellizas ya se ha empezado, y una vez terminado esto se emprenderan los trabajos de la tercera seccion que nos llevara a Trenque-Lauquen.

Dentro de unos años podemos pues, asegurar que estos campos estaran cuando mas a 48 horas de la ciudad de Buenos Aires.

Este solo hecho triplicara el valor de todas las tierras en esa direccion.

En cuanto a la calidad de la tierra de este lote de 16 leguas, nos referiremos alos informes oficiales del agrimensor Sr Maqueda quien los mensuro y amojono.

Dice el—"La calidad de estos campos es buena, siendo abundante en sus aguadas y pastos tiernos.

Hay tambien tres bosques de consideracion, de algarrobo y calden, cuya utilidad y riqueza es indisputable.

En toda la estension del campo hay 14 laguna casi todas ellas de caracter permanente. Una de ellas de agua dulce mide 700 metros de largo por 400 metros de ancho con un buen monte a su alrededor.

Hay varios cañadones con pastos tiernos para ovejas.

Fuera de estas importantisimas aguadas dulces hay varios ojos de agua y jagueles indios.

Los linderos son los Sres Unzue, Del Carril, Drysdale, Irigoyen y otros de igual importancia.

El lote de 10 leguas se haya igualmente bien situado.

Se compone de los numeros 3, letra A. de la seccion tercera la mitad Sud del numero 23 y el numero 24 de la letra D, seccion segunda territorio nacional.

A 4 leguas solamente del gran Establecimiento poblado del Señor Anchorena y a corta distancia de la estancia alambrada de D Saturnino Unzue, y sobre el camino precisamente que pasa de Guamini, Carhué a General Acha, se halla en contacto diario con los establecimientos mas importantes alrededor de Bahia Blanca.

Su proximidad relativa a este gran puerto y el hecho importante de estar sobre la via que pasara de Bahia Blanca a Mercedes, lo coloca en una position muy ventajosa para el poblador que prefiere una buena vecindad a la seguridad problematica de los campos mas lejanos.

Sobre la bondad de estos campos hablaran los agrimensores Maqueda y Dillon, de cuyos informes oficiales extractamos lo siguiente :—

Linea Norte—Se encuentran vestigios de haber sido una gran tolderia de indios, campo ondulado, alto y descubierto, hay un buen monte de Chañares y Caldenes.

Linea Oeste—Campo accidentado abundando la gramilla en los montes.

Linea Este—Montes de caldenes, terreno poco accidentado con lagunas.

Linea Sud—Hay montes, cañadas de agua dulce, y muchos caminos indios.

Abundan los pastos puna dulce, trevol, gramilla colorada cerca del angulo S O hay vestigios de Tolderias de indios donde convergen los distintos caminos cruzados por las lineas. Hay gran cantidad de jagueles de agua dulce. Este punto es conocido por el nombre de "Ranquilco."

Por folletos y planos de estos campos, ocurrir a nuestra casa, Alsina 78.

78——ALSINA——78
El Martes 22 de Enero de 1884
A las 2 en punto de la tarde

Venderemos a la mas alta postura y a los plazos arriba indicados 32 leguas de esplendido campo, ya celebre por sus ricos pastos tiernos, sus abundantes aguadas y la fertilidad de sus tierras.

Los numeros en venta son el 11, 19, 20, 21 y 23 de la letra A, y el 1, 2 y 9 de la letra D, Seccion 8, Territorio Nacional.

Todavia existen alli los vestigios de las Tolderias de los Ranqueles, sus rancherias, sus corrales y sus jagueles de riquisima agua.

Estos campos y los inmediatos a la Ciudad de Buenos Aires, son los verdaderos
Campos de pasto tierno

Los primeros por haber estado en el poder tranquilo de los Indios por mas de un siglo, y los otros por haber sido ocupados por los cristianos.

Los campos de pastos duros son los de la zona intermediaria, donde ni el indio ni el cristiano se aventuraban a permanecer por temerse mutuamente.

Solo asi puede racionalmente esplicarse el hecho notable de que en la seccion octava se encuentran pastos tiernos siguiendo a los campos de adentro que valen hoy pesos 3,000,000 la legua.

El informe del agrimensor Alsina sobre estos campos dice textualmente asi :

"Estos campos que fueron ocupados por los indios Ranqueles se encuentran respecto de calidad y cantidad de pastos, montes, piso, etc, en identicas condiciones que los campos de Leubuco y Poitague, cuya superioridad es publicamente conocida."

"Dice el agrimensor Pico que los arboles de esta region son inmensos, entre ellos los hay que miden cuatro y media varas de circunferencia en su tronco principal abarcando con sus ramas un diametro termino medio de 30 varas."

Apesar que algunos colocan el Pueblo Victorica, ya una poblacion de 1500 almas, en el lote 23, los propietarios de estos campos tienen datos particulares de personas de esa localidad que les permiten declarar que se encuentra en el 22 el lote lindero, o sea en el corazon de estos campos.

Fuera de una infinidad de jagueles de agua riquisima el campo tiene las lagunas siguientes—Poitague, Aucamelué, Lui Carreta, Tirlin, Utra Trigoin, Echoué, Quillai Lauquen, Quitripil, Antiqueo, Guada y varias otras de lluvia sin nombre.

Por planos y folletos ocurrir a nuestra casa, Alsina 78.

Las condiciones de pago son ¼ parte al contado, y el resto a una y dos años de plazo sin interes y con pagares hipotecarios.

El Miercoles 16 del Enero
A las 2 de la tarde

Remataremos a la mas alta postura y condiciones que se estipulan mas abajo, por division de condominio entre los Señores Newberry y A. S. MacNally, por ausentarse este ultimo del pais.

El campo arriba mencionado, compuesto de 7887 hectareas o sean cerca de 3 leguas, ubicadas en la seccion XVII de la Provincia de Buenos Aires.

Estos campos son conocidos por el nombre de Fu-lo o Las 3 Lagunas, y estan rodeados de grandes estancias, propiedad de los Señores Drabble hnos, Duggan hnos, Media Luna, Juan Brown, Ricketts y Compania Pastoril Argentina y muchos otros ; distan pocas leguas de Lavalle y 18 leguas mas o menos del pueblo Lincoln.

El Ferro Carril Trasandino queda muy inmediato y el Ferro Carril de las Mellizas a Trenque-Lauquen, que estara terminado en breve tiempo, pasara muy cerca tambien.

El campo realmente es flor, teniendo abundantes pastos tiernos, cebadilla, alberjilla, cola de zorro y otros gramineos como para ovejas, tiene mas de 40 centimetros de tierra vegetal y abundantes aguadas permanentes.

Las condiciones para la venta son ventajosas y el comprador puede tomar a su cargo cuatro letras que adeuda el campo, cada una de 44,000 m/c, pagadero a 24 de Diciembre de 1884 la primera.

Las personas que quieran inspeccionar o mandar ver el campo, tienen diligencias que sale de Chivilcoy los dias 1, 7, 11, 13, 19 y 25 de cada mes, desde Chivilcoy a Media Luna y de alli encontraran caballo o carruages que los llevara hasta el mismo campo.

Por mas informes pueden ocurrir a nuestra casa Alsina 78.

78—ALSINA—78
El Viernes 25 de Enero 1884
A las 2 en punto

Remataremos a la mas alta postura y condiciones que se estipularan mas abajo.

40243 hectareas 7 areas y 67 centiareas igual a seis leguas, mas 4,972/10,000 de otra, situadas en el mapa del Departamento de Ingenieros de la Nacion con los numeros 23 y mitad de 18 bajo el nombre de Laura Bunge de Pacheco.

Linda al campo con establecimientos de gran importancia como los de los Sres. Emilio Y Bunge, Zemborain Hnos, Salas, Cernadas, Carlos S Guerrero, Chas e hijos, Rosa Demaria, del Valle, (Italo) Drabble Hnos., y varios otros. Como se ve este campo esta situado en medio de Establecimientos muy importantes ya formados y otros en formacion.

La gente que va a Gainza y de alli a lo del Sr Bunge o Italo pasa muy cerca de esta campo y los interesados pueden inspeccionarlo con toda comodidad.

Otra ventaja importantisima es la proximidad de la gran linea ferrea Trasandina que pasa a muy corta distancia de alli y que tendra ya no tardando una Estacion ya sea en Gainza que solo dista dos y media leguas de este campo, o otro punto mas proximo de la gran Colonia Irlandesa, es sabido que se estiende de aquel lado, pues las recientes ventas hechas por los Sres. Selez y Cernadas, son en su mayor parte o Estancieros de esa nacionalidad, que como se sabe llevan consigo el bienestar adelanto y aumento en la fortuna.

Las condiciones para la venta son sin base y el pago se hará una tercera parte al contado y el resto a tres y diez meses de plazo sin interes y pagares hipotecarios sobre el mismo

La venta se hará en lotes de una legua cen opcion a mas.

Por planos y mas informes a nuestra casa Alsina 78.

78—ALSINA—78

Las tierras que se ofrecen en venta, se encuentran ubicadas en la Provincia de Santiago del Estero sobre el deslinde con la de Santa Fe.

Su situacion es inmejorable y dificilmente podria ofrecerse a la venta una estension de tierra que reuna las condiciones de las que van a rematarse. Estan situadas al norte de la Provincia de Santa Fe y a ocho o diez leguas de las florecientes colonias de esta Provincia y a muy poca distancia de los importantes establecimientos de los Srs. Ramayon y Escalada, Lezama y otros.

Dentro de muy breve tiempo las colonias invadiran estos campos que por su feracidad y situacion se prestan cual ningunos otros a la agricultura.

La calidad de estas tierras es excelente. Estan cubiertas de una capa de tierra vegetal de sesenta a ochenta centimetros y en algunas partes el espesor de estas capas pasa de un metro. Las aguas subterraneas se encuentran a cuatro, cinco y seis metros de profundidad, y en todos los jagueles que se han hecho hasta ahora en esta region, se ha encontrado agua dulce. Abundan ademas las aguas superficiales en pequeños arroyos y lagunas.

Estos campos son parte de los comprados ahora muchos años por D. Adolfo E. Carranza al Gobierno de Santiago del Estero y cuya mensura y plano fueron levantades en los años 1859 y 1860 por el ex-Ingeniero Nacional D. Juan Hildebrano.

En el año de 1873, a solicitud de sus propietarios entonces el Dr. D. B. de Irigoyen, D. Alejo Arocena, D. Anacarsis Lanus, D. Ambrosio Lezica y Don Adolfo E. Carranza, fueron prolijamente mensurados y amojonados en suertes de cuatro y seis leguas por el Agrimensor Publico D. Valentin Virasoro, mensura y division que fue ordenada y aprobada por el Gobierno de Santiago del Estero.

El espediente original se encuentra archivado en el Ministerio de Gobierno de la Provincia de Santiago, pero un testimonio publico de este espediente con todas sus ocupaciones, esta depositado en esta ciudad en la Oficina de Registro del Escribano D. Ramon F. Lagos, (Pasage Rovirano, escritorio num. 34 altos) donde los interesados pueden inspeccionarlo.

Las ciento sesenta y siete y media leguas que se ofrecen en venta, estan divididas en treinta y una suertes de cuatro leguas, cinco de seis leguas, dos de cuatro leguas y una fraccion, una de tres leguas y media, y otra de una legua y media.

Todas estas suertes estan perfectamente amojonadas, teniendo cada mojon gravados los numeros de las suertes a que corresponde. El agrimensor señor Virasoro ha adjuntado en su diligencia de mensura los datos principales de la naturaleza de cada una de estas suertes y a pedido de uno de los interesadosdio un informe especial sobre las tierras que van venderse que en su mensura estan señaladas y divididas en tres lotes con los numeros 1, 2 y 4 de la seccion del Este.

No publicamos aqui esos informes por su estension, pero los interesados los encontraran en el folleto que hemos publicado y puede obtenerse en nuestra casa Alsina 78.

Esos informes son muy minuciosos y dan una idea exacta de la calidad de estos campos y ellos fueron pasados a los Sres. Bates, Stokes y Ca. por cuenta de quienes el agrimensor Sr Virasoro practico la mensura.

Desde la ciudad de Santa Fe a estos campos hay solo treinta y dos leguas. Desde el lote 100 al pueblo de Reconquista, centro de colonias y establecimientos importantes hay veinte y tres leguas.

Ademas del informe del agrimensor Sr. Virasoro y del que hemos transcrito los parrafos que se refieren a la estension de tierras que ofrecemos en venta, pueden los interesados consultar el espediente de mensura que se encuentra en poder del escribano Sr Lagos, donde encontraran datos sobre cada una de las suertes.

La rigneza de estas tierras por su feracidad sus ricas aguadas y sus montes esta fuera de toda ponderacion.

Podemos asegurar que antes de dos o tres años estara colonizada la nuevor parte de esta zona, pues las colonias de Santa Fe, como puede verse en el mapa adjunto, avanza mas rapidamente hacia ese lado, que es donde estan las tierras mas ricas para la agricultura.

Contribuira poderosamente para el desarrollo de esas colonias la proximidad del puerto de Reconquista, sobre el Rio Parana, como tambien el Ferro Carril que se propone construir la empresa de los Sres. Murrieta y Ca.

Es publico y notorio que estos señores acaban de enviar a Santa Fe al Señor Don F. E. Harman, distinguido agronomo ingles, con el objeto de estudiar esas tierras que van ineontinenti a ser colonizadas en gran escala.

Estan depositados en el Banco de Londres y Rio de la Plata los fondos necesarios, no solo para los gastos preliminares, sino aquellos que se requieren para la instalacion de varios grandes establecimientos de campo.

En vista de estos antecedentes, es indudable, que antes de muy poco tiempo, esas tierras valdran de 20 a 30 mil pesos fuertes la legua, precio que hoy se obtiene facilmente en las ventas de las tierras proximas a estas para colonias.

Por planos y folletos ocurrir a nuestra casa Alsina 78.

De 30,000 HECTAREAS
DE
Tierras Nacionales
UBICADAS
En las Secciones IV y X
Excelentes Campos
CON BUENOS PASTOS
Abundantes montes
AGUADAS, &c.
Muy cerca del pueblo
De Bahia Blanca
Con dos lineas ferreas proyectadas
La mitad al contado y el resto a 1 y 2 anos
SIN INTERES
EN NUESTRA CASA
78—ALSINA—78
El Martes 22 del corriente
A las 3 de la tarde

Remataremos a la mas alta postura y condiciones que mas abajo se estipulan, los siguientes campos nacionales :

10,000 hectareas ubicadas en la IV Seccion Letra A, lote num. 14.

20,000 hectareas, ubicades en la X Seccion Letra B, lotes num. 24 y 25.

La primera fraccion queda como a 25 o 28 leguas de una de las Estaciones del Ferro Carril del Sud de Bahia Blanca y de la consiguiente puede decirse a 1 dia escaso de la Capital. El campo es quebrado, muy abundante en pastos, siendo estos mezclados, predominando un pasto fuerte de excelente engorde.

Hay monte de caldon y algarrobo, siendo la parte Norte del lote mas montuoso, y mas pastosa la parte Sud. Tierra algo arenosa pero muy buena y segun las opiniones de las personas que han informado sobre esos campos por haber recorrido toda la seccion, es tal vez el mejor lote de ella.

En cuanto a los informes de las 8 leguas de la X Seccion, son mas o menos iguales.

Este campo queda muy cerca de los que acaba de vender el Sr Tornquist al Sr Bernasconi y a la gran estancia del primero de estos señores uno de los mas grandes Establecimientos de la parte Sud de la Provincia.

Las grandes vias ferreas que deben arancar del gran puerto de Bahia Blanca y que cruzaran la inmensa zona de tierras Nacionales, encerrandolas un vasto circulo de hierro y que terminaran en Antuco (Chile) Ville Mercedes, San Luis, etc, tienen forzosamente que impulsar y dar gran valor a todas estas tierras.

La adquisicion de estos campos esta al alcance de todos y las condiciones son ventajosas la mitad al contado y el resto a 12 y 24 meses (1 y 2 años) de plazo sin interes, con pagare hipotecario.

No hay base, ni limite para la venta.

Por mas datos, planos y pormenores ocurrase a nuestra casa, Alsina 78.

DE
10,000 hectareas
De Terreno
En la SECCION 4ª
Situado dentro de los limited de la
PROVINCIA de BUENOS AIRES
A 10 leguas (garantido)
Del gran puerto de Bahia Blanca
Con buenos pastos y aguada permanente
Sin Base
Mitad al contado y mitad a 6 meses
En nuestra casa
78—ALSINA—78
El Viernes 25 del corriente
A las 3 de la tarde

Remataremos a la mas alta postura, por orden de su propietario.

El lote num. 28 de la 4ª Seccion de los terrenos cedidos por la Provincia de B. Aires al Gobierno de la Nacion compuesto de 10,000 hectareas.

Linda con el num. 17 del Sr D Gregorio Soler, el numero 29 de Martin L. Munro, num 42 del Sr D P Ramsay y Bell, num. 27 Riat Hnos, tomando parte de las Salinas Chicas.

La distancia de Bahia Blanca es de 10 a 11 leguas garantidas y la Comisaria de Salinas Chicas esta instalada sobre este mismo campo.

El campo es de muy buenos pastos y con aguada permanente.

Los lotes num. 27 y 42 estan poblados con haciendas vacuna y lanar y del otro lado del Sauce Chico y 6 leguas cascasa esta la gran Estancia de los Sres. Ernesto Tornquist y Cia. con 80,000 ovejas, vacas y yeguas, etc.

La proximidad del puerto de Bahia Blanca es de suma importancia, pues facilmente se comprende que los gastos de conduccion para los frutos del pais son insignificantes en un trayecto de 10 leguas a recorrer.

Las comodas condiciones para el pago es otra ventaja que no debe perderse de vista, mitad al contado y mitad a seis meses de plazo con hipoteca del mismo campo y sin interes.

Planos y mas datos pueden obtener en nuestra casa Alsina 78.

c 146 j14 25

POR LOS MISMOS

para los que quieran poblar y prosperar en poco tiempo
70,000 hectareas
O SEAN
28 LEGUAS
En las Secciones IX y X
Incluyendo el lote con el ejido
Del Pueblo General Acha

Las celebres tolderias de los Indios de la Tribu de Namuncura. La Estacion Pigué, del Gran Ferro Carril del Sud, solo dista 30 leguas. El Ferro Carril de Bahia Blanca a Villa Mercedes cruzara estos campos.

Condiciones comodas para el pago

Una tercera parte al contado y el resto a uno y dos años de plazo. Con pagare Hipotecario.

SIN INTERES
El Jueves 14 de Febrero
A las 2 de la tarde

Venderemos a la mas alta postura y a los plazos y condiciones mencionados.

28 leguas kilométricas con 70,000 hectareas de muy buen campo de pastos tiernos y fuertes propios para vacas y ovejas, con esplendidas aguas permanentes en algunos parajes y facilidad con otros para hacer jagüeles.

Los campos que ofrecemos se remataran por disolucion de sociedad, y por consiguiente sin base.

Los lotes son : lotes C. núm, 6 con el pueblo General Acha y Ns. 10, y 22 y 33 de la Seccion 10ª. y lindando con los tres lotes anteriores y cada lote compuesto de 4 leguas kilométricas y a 5 leguas al Sud Oeste distante del Pueblo General Acha, la segunda Bahia Blanca del Sud, por su floreciente comercio y el gran desarrollo de la poblacion, pues cuenta ya en la actual con el servicio de dos galeras, la del señor Camacho (via del Sud) que sale de la Estacion "La Gama" F.C.S. los dias 10, 20 y 30 de cada mes tocando sus agencias calle Moreno 243 y la del señor Negri, agencia Tacuari 9 y 11, que sale desde Chivilcoy los 9 18 y 29 de cada mes, y ambas Empresas hacen este servicio sin aumento de ningun género lo que demuestra que pueden vivir y son acostonadas por el comercio y la poblacion del pueblo General Acha, que sera la Capital de la Gobernacion de una seccion de los Territorios Nacionales.

Como se ve, esto pueblo tiene comunicacion, cada tres dias con la Capital y pronto sera diaria por medio del telegrafo en via de construccion y cuyos postes estan ya muy cerca.

Para demostrar la bondad de estos campos solo nos bastara mencionar las estancias existentes en la jurisdicion de General Acha :

Señores Anchorena, agrimensor Castex Lopez Osornio (en 3 cruces), Real y Oliver (en Artehuco), Frisch-Patrick (Saeinas Grandes), Teves Tobio, Corvalan, Gimenez, de los Santos, Gadea, Loza y Lezcano (Chiihue), D. Simon (Siguelco), Candevila y Escandy (Pergepel y Maraco), Balcarce y Herera (Renco Grande), Mater y Eseste (en Quini Mola) agrimensor Cascallar en (Rehi Rinanco) y muchos otros pobladores cuyos nombres no recordamos y ademas el espacio no nos permite estendernos mas sobre estos campos.

Los detalles minuciosos y datos estadisticos pueden verse en el folleto que publicamos con el correspondiente plano de las tierras que ofrecemos en venta y que esta a disposicion de los interesados en nuestra casa Alsina 78

POR LOS MISMOS
De un magnifico Campo
En el Partido de Tapalqué
Una Legua Cuadrada
600 Cabezas ganado vacuno
CON 15 o/o DE NOVILLOS
1200 ovejas mestizas
POR LIQUIDACION
En nuestra casa
78—ALSINA—78
El Jueves 31 del corriente
A las 2 de la tarde

Remataremos a la mas alta postura y dinero de contado, por liquidacion de una sociedad ; Una legua cuadrada de campo superior para vacas y ovejas.

Existen en el campo 4 puestos y dista este solamente dos leguas del pueblo de Tapalque ; linda al Norte con el Sr D Antonio Perrero, al Sud Estanislao Colman, al Este herederos de Jose Balcarce, hoy Esteban Villanueva, Emilio Fernandez y Jorge Gianola, al Oeste Daniel Burke. Como decimos mas arriba el campo es de primer orden, pues ha tenido mas de 12000 ovejas, cuya lana se ha vendido este año alli a $81 arroba, las vacas han dado un aumento de 30 o/o.

Los arrendamientos que alli se pagan son $40,000 por legua al año.

Vendido el campo se remataran 600 vacas con 15 o/o de novillos al corte, y 1200 ovejas mestizas al corte.

Las haciendas deberan sacarse en el acto, siempre que no sea uno mismo comprador del campo y haciendas.

Las personas que deseen ver el campo pueden dirijirse al Sr D. Daniel Burke, que linda con el mismo.

Por planos y datos ocurran a nuestra casa, Alsina 78, o a la calle Rivadavia 210.
